

PITCH · V1.0 · 2026

Guerrilla OOH that *plays back*.

A two-screen interactive platform for in-person brand activations. One player on an iPad. A crowd on a giant LED panel or projection. Live sync. Branded per campaign.

iPAD · SIDE LED · REAR PANEL / PROJECTION

Two-screen brand activations · interactivemedia.ca

SECTION 01 · THE PROBLEM

OOH is loud.

Almost no one is listening.

Static boards get a half-second of attention. Digital boards get tuned out the same way social ads do. Brands keep paying for impressions that don't actually impress.

0.4s

Average glance time at a billboard.

70%

Of consumers say outdoor ads don't feel personal.

9 / 10

Walk-by activations fail to convert without an active hook.

Attention now has to be earned in seconds — not bought in CPMs.

SECTION 02 · THE PRODUCT

It's an *interactive game*.

A player picks up an iPad and plays. The crowd watches the action blow up on a giant LED panel or projection beside them. Every tap, hit, miss, and score syncs across both screens live. Spectators pull into a crowd. The crowd pulls in more players.

SECTION 03 · WHY IT WORKS

Stop them. Hold them. *Capture them.*

STOP**Pulls a crowd in seconds.**

A live game on a giant LED panel is loud, bright, and visibly alive. People stop to watch — then they stop to play.

HOLD**30s rounds. 90s+ dwell.**

Players stay for the round. Spectators stay for the leaderboard, the next player, and the chance to take a shot themselves.

CAPTURE**Turns attention into action.**

A QR on the rear panel or projection lets you collect emails, hand out samples, drop coupons, or launch a follow-up flow.

FULL FUNNEL — "PASSER-BY" TO "OPT-IN" — ON ONE STREET CORNER.

SECTION 04 · THE SETUP

Three surfaces. *One game.*

Every event, hit, score, and miss is broadcast live across all three surfaces. The truck can be a real LED truck, a stage-side LED wall, a window display, or a wall projection. The square panel can be a kiosk, a poster, or a step-and-repeat with a QR. Same engine, different real-estate.

SIDE LED · 1007 × 432

Hype reel — the screen that pulls the crowd in.

REAR LED · 1:1

QR + burst on every hit.

iPad · 4:3 TOUCH

The player's surface.

SECTION 05 · SURFACE 01 — THE PLAYER

The *iPad*.

TOUCH-FIRST

Drag, fling, tap, tilt, draw — built around what hands do best on a tablet.

BRANDED SKIN

Same engine, fully reskinned per campaign — palette, fonts, hero art, sound, copy.

LIVE SCORE

Round timer, combo meter, reaction words — every hit feels rewarding.

END SCREEN

Name entry feeds the live leaderboard on the LED. Capture happens here too.

ON-SITE DIAL

Hidden tweaks panel lets the operator tune difficulty in real time.

HARDWARE

Runs in any iPad browser — no app, no install. Bring your own iPad or rent on-site.

SECTION 06 · SURFACE 02 — THE HYPE

The *LED panel* (or projection).

DEPLOYS AS · LED TRUCK SIDE · STAGE-SIDE WALL · WINDOW PROJECTION · ARENA SCREEN

LIVE SCORE

Updates instantly on every hit — the screen is alive in a way static OOH never is.

REACTION WORDS

POW, KAPOW, NICE — timed bursts that make it feel like the crowd is cheering.

COMBO METER

Visual streak indicator that escalates with the player's run. Pulls eyes in.

LEADERBOARD RAIL

Top scores from the day. People come back to take down the leader.

SECTION 07 · SURFACE 03 — THE CAPTURE

The *rear panel* closes the loop.

SQUARE FORMAT

1:1 panel — fits the back of a truck, a stage scrim, a window, a freestanding kiosk.

QR DROP

Scan-to-anywhere. Email list, sample request, sweepstakes, coupon, IG follow, sign-up.

LIVE BURSTS

Comic-style POW bursts pulse on every hit — keeps moving even between players.

FOOT-TRAFFIC ROI

This is the panel that converts a spectator into a pixel you can re-market to.

SECTION 08 · WHAT THE GAME CAN BE

The mechanic is *yours*.

Same platform. Pick the action that fits the brand. Examples — not a fixed menu.

SLING THE THING

Drag-and-fling slingshot

Branded projectile: a cookie, a lipstick wand, a basketball, a beer can, a bottle, a snack pack. 30s sprint, combos, scoring.

TAP TO THE BEAT

Reflex sprint

Branded glowing dots appear, tap before they fade. Combo multipliers. Music-synced. Energy, music, fitness.

CATCH & DODGE

Branded rain

Catch the good (branded products), dodge the bad. Tilt or tap to move the bucket. Good-vs-evil narrative.

RACE / DRIVE

Steer & dodge

Tilt or drag a thumb to steer a branded vehicle through obstacles. Distance-based scoring.

SECTION 08 · WHAT THE GAME CAN BE · CONT.

Or skip the action. *Quiz them. Vote them. Style them.*

TRIVIA / QUIZ

Multiple-choice rounds

Brand knowledge, sports trivia, pop-culture rounds. Live leaderboard. Sports partners, retail, media brands.

VOTE / TASTE TEST

Head-to-head picks

Original vs. Crunchy. Red vs. Blue. Crowd-sourced votes drive a live tally on the LED.

SPIN TO WIN

Wheel mechanic

Classic prize-wheel reskinned: sample, coupon, free product, swag. QR confirms the win.

DRAW / SIGN / STYLE

Creative mode

Sign a board, customize a jersey, color a product, paint a virtual graffiti wall. Output saves and emails.

PHOTO BOOTH

AR-style frame

Camera mode with branded overlay — photo posts to the LED panel, then gets emailed via QR scan.

UNLOCK / COMBO

Branded codes

Collect items from multiple posters around the venue to unlock a final scene. Scavenger-hunt flavor.

SECTION 09 · WORKED EXAMPLE

Walking through *one round*.

01
Player taps the iPad.

Name entry, then the game starts. The LED swaps from attract to LIVE — the crowd notices.

02
Each hit broadcasts.

Drag, release. The iPad shows the throw; the LED shows the score and a POW! burst.

03
Combos build hype.

Streaks light the combo meter and trigger bigger bursts on the side LED. People stop walking.

04
30s. Final score.

Name lands on the leaderboard. LED tells the crowd if it's a new top score.

05
Spectator scans the QR.

Rear panel pulls them off the sidewalk and onto your sign-up / sample / coupon page.

SECTION 10 · RESKIN EXAMPLES

Same engine. *Different brand, every time.*

SNACK BRAND

Sling the cookie or chip

Branded projectile and target. End screen offers a coupon or sample.

BEAUTY BRAND

Apply the mascara or lipstick

Drag-and-paint mechanic. Final look exports to email.

BEER / BEVERAGE

Toss the can into the cooler

Slingshot reskinned as a branded can. Crowd cheers a perfect landing.

SPORTS TEAM

Free throws / penalty kicks

Branded ball, team court, mascot reactions. Leaderboard sponsored by partner.

AUTO BRAND

Drive the new model

Tilt-to-steer. The truck shows your run. Leaderboards the fastest lap.

STREAMER / MEDIA

Trivia from a show

Multiple-choice rounds, instant scoring, sweepstakes drop on the rear QR.

FAST FOOD

Build-the-burger / fry-toss

Drag ingredients into the bun in 30s. Closest order wins a free meal.

RETAILER

Catch falling items

Catch & dodge reskin. Running tally on the LED. Coupon at the end.

SECTION 11 • WHERE IT GOES

Anywhere people *gather.*

FESTIVALS

Concerts, food fests, fairs.

STADIUMS

Concourse activations, fan zones, pre-game.

RETAIL & MALLS

Floor displays, pop-ups, window installs.

STREET TAKEOVERS

LED truck pulls up, draws a crowd, drives away.

CONFERENCES

The booth that beats every other booth.

CAMPUS

Quad takeovers, orientation, recruiting.

LAUNCH EVENTS

Brand launches, product unveils, premieres.

HOLIDAY MARKETS

Winter villages, summer markets, food halls.

ANY IN-PERSON FOOTPRINT WITH A SIGHT-LINE FOR A SCREEN OR PROJECTION.

SECTION 12 · WHAT YOU GET

Turnkey. Custom-branded.

01 Custom build

Fully reskinned iPad game + LED display. Your palette, fonts, logo, hero art, audio, copy. Brief-to-live in days.

02 Hardware-ready

Built for iPad in landscape, LED at any common dimension, projection-ready output. We hand you a URL.

03 Operator panel
